# Planned Compute

## Offering Savings for Commitment

Planned Compute is a flexible pricing option of Samsung Cloud Platform that provides discounts in exchange for a commitment to a consistent amount of usage for a one- or three-year term. It provides the most flexibility as it is applied across multiple resources, regardless of operating system or server type.

### Offering Savings

Planned Compute is a flexible pricing option that offers savings of up to 40% over on-demand pricing in an exchange for a one- or three-year commitment. It is applicable to the on-demand pricing of compute resources, analytics and database products. Discounts automatically apply when the attributes of Planned Compute matches the attributes of on-demand resources.

### Supporting Various Features

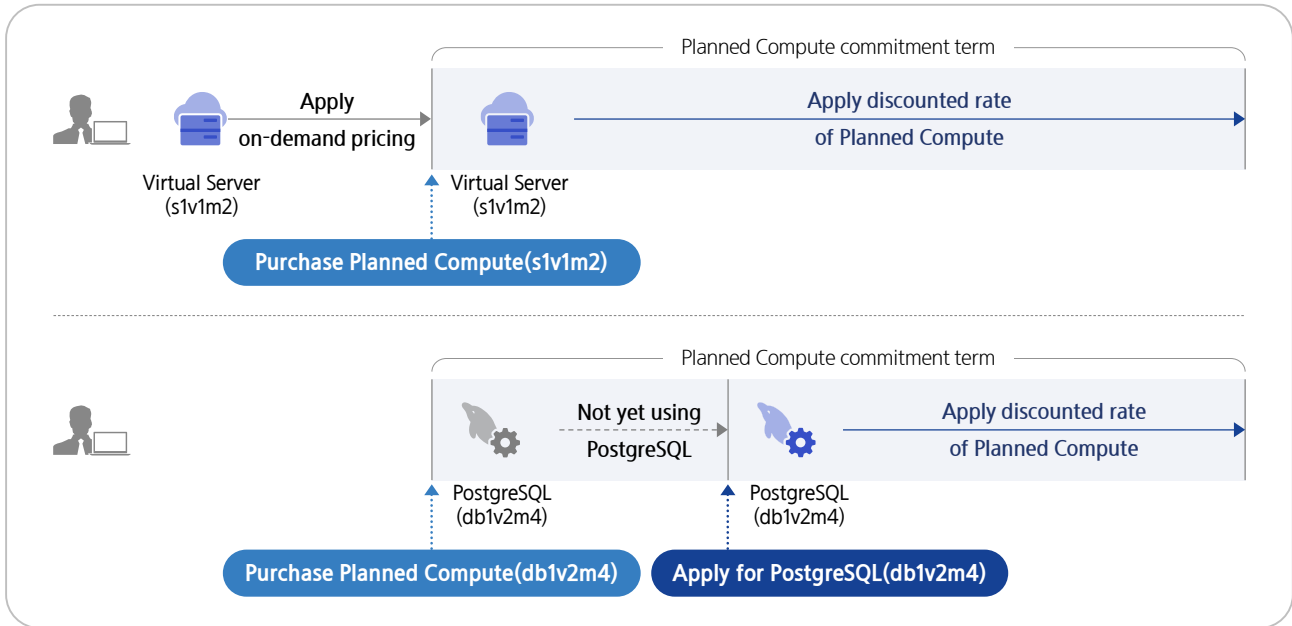

Planned Compute provides various features such as service application, extension and changing a server type. When applying for Planned Compute, users are required to specify a product eligible for savings, its operating system, a server type, commitment term, and quotas.

### Easy Management & Monitoring

Using a list of Planned Compute, users can check the usage of Planned Compute and modify the terms and conditions in their commitment when necessary. Also, it allows users to see the savings achieved by Planned Compute compared to on-demand pricing through the coverage check.

## Service Architecture

## Key Features

- **Applying for Planned Compute**
  - Users specifying an eligible product, operating system, server type, commitment term and quotas
- **Modifying Planned Compute**
  - Renewing a commitment to extend an existing commitment, if necessary
  - A server type can be upgraded to a higher version
- **Checking coverage**
  - Showing the amount of savings compared to on-demand pricing over the same product, operating system and server type of Planned Compute
- **Early termination and penalties**
  - Any unused resources under Planned Compute can be terminated before the end of the commitment period
  - An early termination fee of 50% of the remaining balance will be charged at the two months after termination

## Pricing

- **Billing**
  - Billed on a monthly basis for the commitment
  - Fees are charged for early termination of services
    - ※ For more information, please contact us at [Service Portal > Support > Inquire Us].
