Automation in trade finance evaluation

The duration of work will be reduced by improving the manual input process as a method of verification after automatic authentication. The accuracy and reliability of the evaluation work will be also improved.

Organization to issue shipping/documents Customer Щ Chamber of Shipping Insurance Other Customs Exporter/ Commerce banks entity Importer And industry Evaluation automation system Shipping documents (Post/FAX/e-mail) Auto-recognition TA Shipping Work system Extract items documents Items to (image) to extract Sanction Visual/A extract **Evaluator** Filtering Result of System decision **Evaluation management** Regarding violation Verify items Confirm evaluation of laws An item is found to extract results to decide Whether it is the violation of laws.

- Extract evaluation items in connection with text analytics after recognizing characters of shipping documents with AICR
