SentinelOne Use Case

Optimized security

Minimize operational staff and costs with a single solution that strengthens your endpoint defenses.

Multiple-solutions Approach

Multiple agents

Multiple management consoles

High FTE

4x higher TCO

Integrated Approach

Single light-weight agent

Single management console

Low FTE

Reduced TCO

SentinelOne

Endpoint Protection Platform

Pre-Execution

- ·Prevention
- · Whitelisting & black listing

On-Execution

- · Dynamic malware detection
- · Dynamic exploit detection

Post-Execution

- ·Removal
- ·Recovery
- · Forensic analysis
