SAMSUNG
Square Meeting AC+

Are your audio conference truly facilitating collaboration?
Many companies are already using audio conference as a collaboration tool since it is conveniently available anywhere in the world at a low cost.

However, in order to adapt to constantly changing market conditions, more quick and precise communication is required. Businesses require differentiated conferencing services to facilitate effective collaboration.

SAMSUNG
Square Meeting AC+

Samsung SDS Square Meeting AC+ is a next-generation conferencing service that enables quick and easy audio conferences(AC) and screen sharing through an app.

Transform your meetings with our business collaboration tool that facilitates quick and accurate communication.

Smart audio conferences with screen sharing

Simply select the participants from your contacts to instantly start an audio conference.

Enjoy additional functions that expedite decision-making, such as screen sharing and digital whiteboard, at no added cost.

UX optimized to mobile devices

Square Meeting AC+ is as simple to use as a messenger app: simply select the participants from your contacts and instantly start a AC.

Powerful key functions

On top of crisp sound quality, all key functions required for conferencing, from adding participants and re-starting a call, are readily available from the app.

Screen sharing during AC

Communicate accurately with screen sharing from your mobile or PC at no added cost.

Key Functions

Quick and easy cooperation with mobile optimization

Synced Contacts

Immediately start or schedule a meeting for later by selecting the participants from contacts synced with your device.

Meeting Notifications

Receive meeting notifications in real-time via SMS and app notifications.

Various User Interfaces

Available on both smartphones and PCs. Supports Android and iOS for mobiles and Windows and macOS for PCS.

Effective meetings with various functions

Active Talker

Check who is talking during meetings. Square Meeting AC+ displays the active talker on the screen.

Participant Management

View the meeting participants at a glance. Remove or additionally invite participants.

Meeting Control

Easily end or restart meetings.

Accurate communication with screen sharing

Screen Sharing

Share your screen with participants from a mobile or PC.

Browser-based Screen Sharing

Share your screen with participants even if they haven't installed the app through a browser.

Pen

All participants can freely sketch out ideas during screen sharing in real-time.

Ensure accurate and easy collaboration with Square Meeting AC+
audio conferences and screen sharing.

Communicate effectively

We've applied a more user-friendly UX to our existing AC solution to ensure more collaboration. Communicate with ease and convenience.

Cut down on communication costs

Drive the best results at a reasonable price. Our conferencing solution includes screen sharing at no added cost, allowing you to freely communicate with colleagues around the world.

Improve business produactivity

Expedite decision making with simultaneous audio conferencing and screen sharing. Improve business efficiency and expedite workflows.

Unleash the potentials of Square Meeting AC+

Conduct meetings with overseas branches

Communicate and share documents with colleagues around the world at a more affordable price than making international calls.
Facilitate clear communication without being constrained by time or distance.

Start meetings on-the-go from your mobile

Need to negotiate the terms and conditions during a proposal to a client? Expedite collaboration by immediately starting a meeting on the spot from your mobile without going through any additional processes .

Respond to emergencies on-site with screen sharing

Need to make emergency modifications to your blueprint on-site? Square Meeting AC+ allows you to quickly share issues and directly instruct modifications to your documents with screen sharing to expedite decision making.
