Next Generation of Push-Pull Doorlock

Smart IoT Doorlock, SHP-DR708, opens the door to new smart life. Building upon the previous generation breakthroughs with multiple access methods, precision engineering and design, the new generation smart IoT Doorlock provides upgraded accessibility, strengthened security, and connectivity with your smartphone.

Electronic Doorlock
Security upgrade, multiple certifications
Focus on the product differences.

Push-Pull type Smart Doorlock
The first push-pull type door lock
Leading a brand-new market.

Connected Doorlock
New attempts at Bluetooth and IoT technology
Constantly pursuing change.

Smart IoT Doorlock
Built-in Wi-Fi chip
Opened a new chapter in the Internet of Things era.

What are the Smart IoT Doorlock services for?

- Real-time confirmation of door lock status (Wi-Fi)
  - When the door is abnormally opened, you can receive push messages via the smartphone in real time.

- Setting a visitor’s exclusive mobile key
  - A unique key that allows the postpartum helper and the nanny to enter and exit within the set time.

- Quick view on the door access information of the registered family members via mobile application (up to 30 histories)
  - Check your family members’ access history via smartphone.

- Sending a visitor’s exclusive mobile key
  - Smart doorbell is an APP push service that informs you of the visitor’s arrival thru the built-in bell in the smartphone.

- Real-time confirmation of door lock status (Wi-Fi)
  - Smart doorbell service for the guest.

- Check the family members’ safe return via smartphone in real time.
  - No need to bring your keys and worry to lose.

- Receive push notification which includes registered user’s name, arrival date and access time via smartphone in real time.
  - Unlock your door with smartphone.

Free download the mobile app, [Smart Doorlock] from the iTunes App Store™ or Google Play™ for the smart IoT doorlock service.
Various accessibilities
Provides the various door access methods depending on your life style. (mobile application, fingerprint, passwords, mechanical key overrides, NFC-enabled Android phones)

Touchpad screen
The highly sophisticated touch screen makes so much easier for you to enter the password to unlock the doorlock.

Automatic locking
Just close the door when you go out. It automatically locks the door by itself so that you do not need to re-check.

Welcome mode
APP push notification
Guest doorbell function

NFC unlocking
Put the smartphone close to the smart lock to complete the authentication. (NFC-enabled Android phones with NFC-enabled USIM chips.)

Enhanced Safety
Touchpad randomizer
Press those two digits, a smart way to prevent would-be thieves from scanning your smudgy fingerprints to figure out which digits will open the door.

Double authentication
Enhanced security with double authentication. It needs to be unlocked by password and fingerprint. (optional)

Anti-theft mode
One you set up this mode, the alarm sounds when the thief tries to exit to the door.

Indoor anti-lock
In order to protect the safety of the home, the indoor anti-lock function can be used to prevent someone from unlocking outside. This function is activated by clicking the "CLOSE" button on the indoor lock body.

Useful functions
Volume adjustment
Adjustable touch pad volume.

Low battery alert
When the battery is too low, you will hear a beep to remind you to replace the battery.

9V Battery back-up
When the battery is dead, you can temporarily use the 9V backup battery to unlock.

Voice guide
No need to read the instruction. Easy to operate with voice guide.

9V Battery back-up
When the battery is dead, you can temporarily use the 9V backup battery to unlock.

Samsung Smart Home interface
It can be linked with Samsung video intercom to achieve remote unlocking.
**SHP-DR708**

- Real-time smartphone entry management service
- Soft touch open
- Fingerprint recognition
- Voice guide
- NFC unlocking

What are the Connected Doorlock services for?

- **Aesthetic Product Design**
  - Samsung SDS’s advanced data security technology
  - Support the secured user authentication and the data protection with the light-weighted end-to-end secure tunneling technology.

- **Convenience**
  - Various accessibilities
    - Provides the various door access methods depending on your life style.
    - (mobile application, fingerprint, passwords, RF cards, smart tag, mechanical key overrides)
  - Touchpad screen
    - The highly sophisticated touch screen makes so much easier for you to enter the password to unlock the doorlock.
  - Samsung Smart Home interface
    - It can be linked with Samsung video intercom to achieve remote unlocking.
  - Automatic locking
    - Just close the door when you go out. It automatically locks the door by itself so that you do not need to re-check.
  - Auto polling
    - RF card or key tag is instantly authenticated for access without the need to press the wake-up button.

- **Enhanced Safety**
  - Touchpad randomizer
    - Press those two digits, a smart way to prevent would-be thieves from scanning your smudgy fingerprints to figure out which digits will open the door.
  - Double authentication
    - This enhanced security feature requires to enter the password and the fingerprint / card for unlocking the door.
  - Anti-theft mode
    - Once you set up this mode, the alarm sounds when the thief tries to exit the door.
  - High temperature alarm
    - When the built-in sensor detects abnormal high-temperature, the alarm will be triggered, and the doorlock will flash to alert the user.

- **Useful Functions**
  - Volume adjustment
  - Low battery alert
  - 9V Battery back-up
  - Free download the mobile app, [sHome Doorlock](https://apple.com/appstore) from the iTunes App Store™ or Google Play™ for the connected doorlock service.

---

**Check the family members’ safe return via smartphone in real time**

**Check your family members’ access history via smartphone**

**Quick view on the door access information of the registered family members via mobile application. (up to 30 histories)**

**Receive push notification which includes registered user’s name, arrival date and access time via smartphone in real-time**

**Unlock your door with smartphone.**

**No need to bring your keys and worry to lose**

**Support the secured user authentication and the data protection with the light-weighted end-to-end secure tunneling technology.**

- **Family arrival notification**: O
- **New access key**: O
- **Unlock with smartphone**: O
- **Capacity (Password)**: 1
- **Capacity (RF ID card)**: 20
- **Number of deadbolts**: 1 pcs
- **Face panel size**: 25 x 109.8 (mm)
- **Number of deadbolts**: 2 pcs
- **Face panel size**: 25 x 240 (mm)
- **Type 1**: SHS-AML240
- **Type 2**: SHS-AML340

**Key tag**

- **Type 1**: SHS-AKT100R
- **Type 2**: SHS-AKT200K

- **Mechanical override keys**: O
- **Applicable door thickness**: 40~60mm (1.4~2.3 inch)
- **Humidity**: 20~80%
- **Temperature**: -20°C ~ +55°C
- **Color**: Black
- **Power**: DC 6V
- **Battery life**: About 10 months (10 Times per day)
- **Product size (Exterior body)**: 82.8 x 19 (mm) 3.2 x 0.7 (inch)
- **Product size (Interior body)**: 140.4 x 100 (mm) 5.5 x 3.9 (inch)

**Accessories**
