WHY SAMSUNG
SMART DOORLOCK

Next generation of Push-Pull doorlock

Building upon the previous generation breakthroughs with multiple access methods, precision engineering, and design, the new generation Smart IoT Doorlock provides upgraded accessibility, strengthened security, and connectivity with your smartphone.

2004
Push button doorlock

2006
Touch keypad doorlock

2012
Push-Pull doorlock

2015
Connected doorlock

2018
Smart IoT doorlock

120
120,000 times mortise operation tests. 20% more than the KS requirement (100,000 times), internal quality standard increased.

82
82 domestic and international design awards. World’s Three Top Design Awards: iF Design Award (Germany), Red Dot Design Award, IDEA Design Award (U.S.)

Prizewinning Count: Based on product models

45
45,000 times door open/close test in a real-life environment.

22
22-year of experience in the home network business.

06
Restriction of six specific harmful substances in the products.
Be notified with push message on your smartphone in real-time when your family returns.

Real-time access notification

Check who and when entered your home or when left home with mobile application.

Access log (Wi-Fi)

When your visitor rings the bell by touching the smart bell icon on the door lock, you will receive a push message in real-time.

Smart bell

Whether you are out of home, you can remotely unlock the door lock with the mobile application.  
* Available only on ‘Samsung Smart Doorlock’ (mobile app)

Smart open (Wi-Fi)

Regular visitor can enter your home with Smart open or NFC mobile key at the certain period of time.

Duration key

You can unlock the door lock with the mobile application.  
* Available only on ‘sHome Doorlock’ (mobile app)

Smart open (Bluetooth)

Issue one-time passcode for your visitor with mobile application.  
* Available only on SHP-DP738 with ‘sHome doorlock’ (mobile app)

One-time passcode

Support the secured user authentication and the data protection with the light-weighted end-to-end secure tunneling technology.

Samsung SDS’s advanced data security technology
SMART IoT DOORLOCK

SHP-DR708

- Access log
- One-time passcode
- Real-time access notification
- Intrusion alarm
- Voice guidance
- Fingerprint access
- Randomizer
- Volume adjustment
- Welcome function
- Double authentication
- Vacation mode
- Incorrect entry alarm
- Low battery notification
- High temperature alarm
- Auto locking
- Intuitive LED touch pad
- LED status icons
- Do not enter mode
- Emergency key
- Emergency power supply

**Specification**

- **Accessibilities**: Fingerprint, Mobile application, NFC mobile key, Passcode, Emergency key
- **Passcode**: 4~12 digit number combination
- **Door thickness**: 40~60mm
- **Power**: AA Alkaline battery x 8 (DC 6V)
- **Battery life**: Approximately 20 months (10 times per day on average)
- **Size (WxHxD)**: Exterior body: 89(W) x 400(H) x 57.5(D)mm, Interior body: 89(W) x 400(H) x 61.5(D)mm
- **Color**: Brown

**Smart open (Wi-Fi)**

Whether you are out of home, you can remotely unlock the door lock with mobile application.

**Duration key**

Regular visitor can enter your home with Smart open or NFC mobile key at the certain period of time.

**Smart bell**

When your visitor rings the bell by touching the smart bell icon on the door lock, you will receive a push message in real-time.

**NFC mobile key**

Your smartphone is the door key. Simply and securely unlock the door with your smartphone.

*This specific feature is available on Android phone only. Make sure NFC is enabled.

**Doorlock status alert**

You’re always notified with push message when the battery is low, intrusion alarm occurs, etc.

**Soft touch open**

Innovative proximity and movement sensors detect when you are approaching and allow a light touch on the lever to open the door.
**SMART IoT DOORLOCK**

**SHP-DP609**

---

**Smart open (Wi-Fi)**

Whether you are out of home, you can remotely unlock the door lock with mobile application.

**Voice guidance**

Spoken feedback to guide the user for setup and ongoing use.

**Fingerprint access**

Just one touch with your finger to unlock the door with fast and accurate fingerprint sensor.

**Real-time access notification**

Be notified with push message on your smartphone in real-time when your family returns.

**Push-Pull lever**

Simply push or pull the big lever to open or close the door.

**Emergency power supply**

When the batteries are discharged, you can temporarily power the door lock with the portable power bank (Micro USB 5-pin).

- Color: Gold, Black, Bronze, Brown
When the batteries are discharged, you can temporarily power the door lock by placing a 9V battery on the external battery socket.

Emergency power supply

Be notified with push message on your smartphone in real-time when your family returns.

Real-time access notification

Display the door lock status, such as Intrusion alarm, Low battery notification, Do not enter mode, etc.

LED status icons

Approaching the door will automatically activate the touch pad allowing convenient passcode entry.

Welcome function

You can unlock the door lock with the mobile application.

Smart open (Bluetooth)

Before entering the passcode, you will enter two random digits, making it difficult to guess with the finger marks.

- Welcome function
- Double authentication
- Vacation mode
- Incorrect entry alarm
- Low battery notification
- Auto locking
- Push-Pull lever
- LED status icons
- Do not enter mode
- Emergency power supply

Fingerprint access
- Just one touch with your finger to unlock the door with fast and accurate fingerprint sensor.

Vacation mode
- Once you set ‘Vacation mode’, the door lock will alarm if anyone opens the door from inside.

Auto locking
- Just close the door when you go out or come in. It automatically locks the door by itself.

Volume adjustment
- Volume can be adjusted or muted entirely for the benefit of those around you.

High temperature alarm
- When the built-in sensor detects abnormal high-temperature, the alarm will be triggered, and the doorlock will be automatically unlocked to allow fast escape.

Emergency key
- When you forget passcode or miss key tag, you can also open the door with a physical key.
