Mobile SCM

Provide convenient management tool through intuitive UI and mobilization.

No longer limited by time or space with the management notebook

- Select menu according to business division, type of work
- Provide sales, production, inventory, market data
- Able to check in real time per group/product
- Intuitive analysis workflow: KPI ▸ Chart ▸ Detailed Analysis
- Provide different comparative analysis information: previous year/quarter/period/model, etc.
- Provide various buckets, such as monthly, quarterly, weekly, etc.
