

HPC Managed Services

Build, manage, and grow your HPC infrastructure

Take away the headache of maintaining your IT infrastructure and let us do the sourcing and managing for you. Enable your organization with easy expansion or outsourcing of your computing, storage and network infrastructure with a cost-effective, high core count, performance-based HPC environment. Partner with Samsung and we will provide world-class infrastructure and HPC solutions.

Infrastructure as a service

Samsung HPC sources, builds, and manages to customer specifications and provides a path to transition out of current to future architecture. Receive private computer access networked to Samsung HPC equipment on dedicated circuits.

Hyper-scalability

Our experienced team of HPC experts will help you design and implement optimal HPC cluster configurations. Let us help you focus on what you do best. The perfect combination of services provides a seamless progression of scalability with our infrastructure and on-site teams to support our customers in a plethora of verticals.

Fault Tolerant Operation

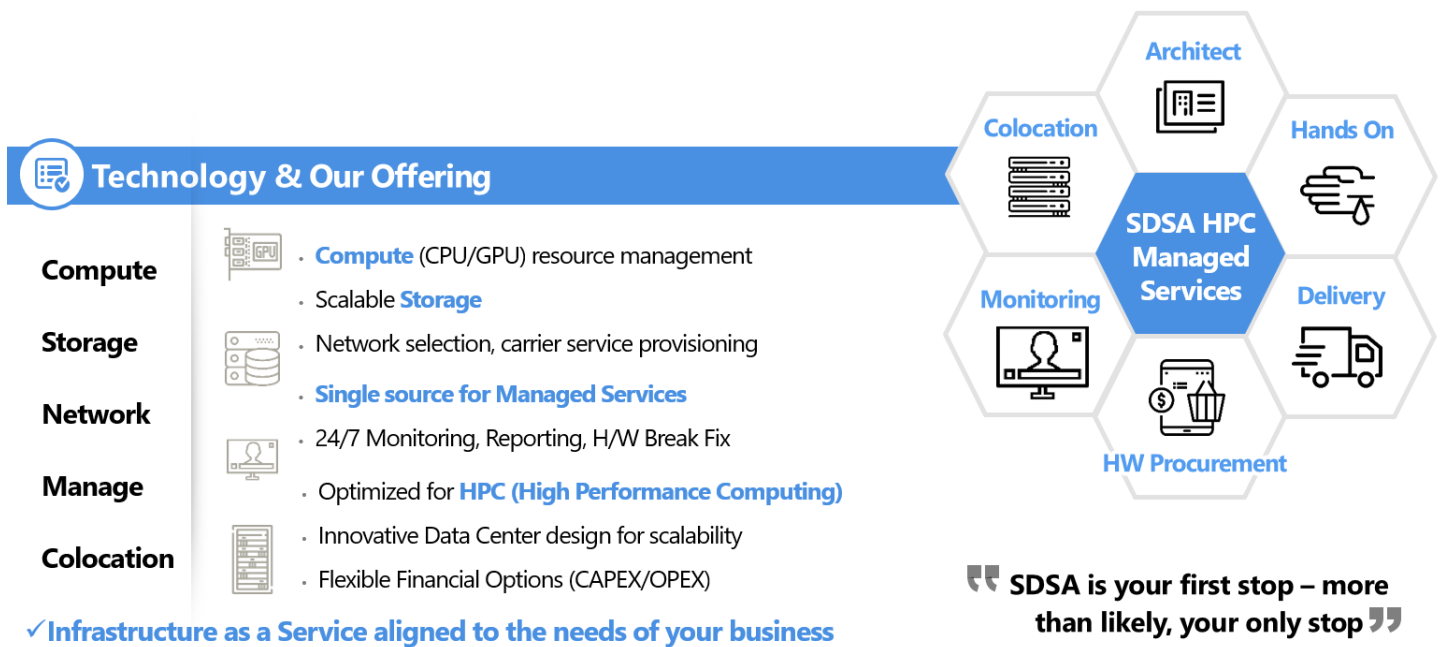

Innovative monitoring solutions and 24x7 manned network operation centers (CCTV and DCIM) protect and monitor our customers' equipment to ensure optimal performance at all times. Stay protected with physical, access and intellectual property (IP) securities.

For Enterprises - expand and grow!

Our industry agnostic managed services solution can help organizations in varying verticals exponentially grow based on business demand. We can work seamlessly with your IT and infrastructure teams to deliver world-class solutions.

For Manufacturers - deliver greater value

Benefit from large core counts and high frequency CPU's that will shorten time to solutions, allowing for customers to drastically increase their HPC cluster throughput. Our services have the depth and breadth to refresh and revamp your HPC strategy.

ABOUT SAMSUNG SDS AMERICA, INC.

Samsung SDS America (SDSA) is the U.S. subsidiary of Samsung SDS, a \$8B global software solutions and IT services company. SDSA helps companies optimize their productivity, make smarter business decisions, and improve their competitive positions in a hyper-connected economy using our enterprise software solutions for mobility, security and advanced analytics.
