Supplemental Components	 AI-Security Posture Mgmt. (AI-SPM)	 Data Security Posture Mgmt. (DSPM)	 Cloud Security Posture Mgmt. (CSPM)	 Application Security Posture Mgmt. (ASPM)
	 Secure Web Gateway (SWG) URL Filtering	 Data Loss Prevention (DLP)	 Cloud Access Security Broker (CASB)	 Cloud Workload Protection (CWP)
DevSecOps Components	 AppSec	 IDE Integration	 Secrets Management	 IaC Security
	 Software Composition Analysis (SCA)	 Container Security	 Web App. & API Protection (WAAP)	 Developer Security Training

## Training & Advisory Services

- Security Posture Assessment
- Zero Trust Security Workshop
- Security Awareness Training
- Developer Security Training

## Deployment Services

- Transactional Model
- Discounted Licensing
- Modular Design & Deployment
- 3rd-Party Integrations & Tooling
- Alerts, Metrics & Ticketing
- Custom Policy Development
- Zero-Trust Architecture Design & Deployment

## Managed Services

- Subscription Model
- Discounted Licensing
- Modular Design & Deployment (all or selected components)
- 24x7 Monitoring, ITSM (IT Service Management)
- Threat Hunting with AI-Driven Response
- Continuous Vulnerability & Compliance Scanning
- Actionable Reporting, Patching & Hardening
- Ongoing Posture Assessments & Remediation
- Identity & Access Governance
- Custom Policy Development and Maintenance
- Zero-Trust Architecture Design, Deployment & Management

## Value Proposition

24x7 Proactive and AI-Driven Protection

Shift-Left Code-to-Cloud Coverage

Intelligence - Driven SecOps

Identity-Powered Zero-Trust Access

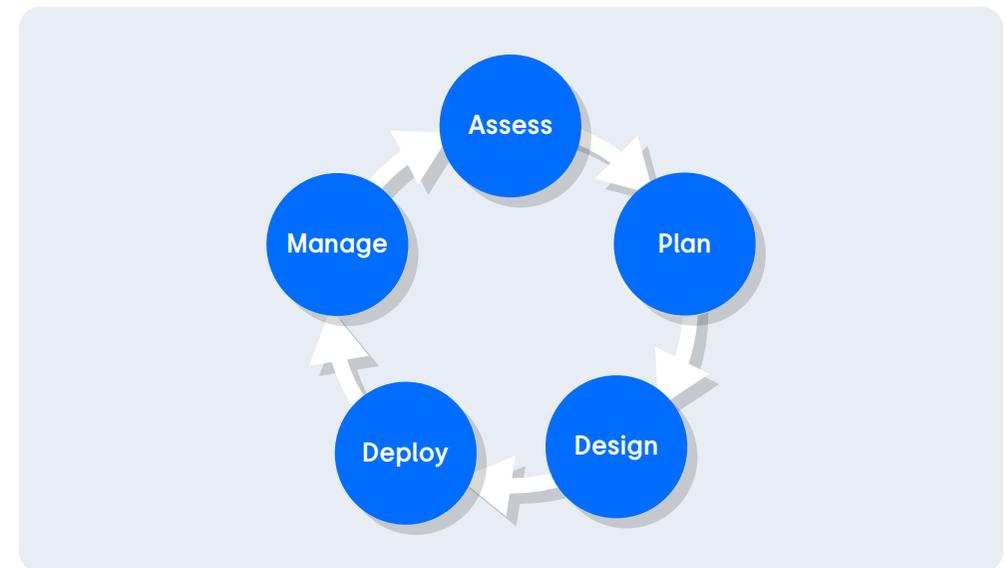

Simplified Compliance Scanning & Reporting

Centralized Security Visibility

## Engagement Model

## Strategic Partnerships

SDSA partners with leading vendors and technology providers in the security domain to deliver best-of-breed solutions tailored to your specific business needs.
