

Communications Network Service : Communications System Operation

Based on the technical understanding and network implementation experience, Samsung SDS guarantees reliable communications service with solutions optimized for communications system operation. Reviews on system defects for a certain period also helps minimize the defective rate.

SAMSUNG SDS

* Screen center operation : 3 in Seoul area, 1 each in Busan/
Gwangju/Daejeon (total of 6)

The process of identifying which equipment requires repair significantly reduces the time it takes and the number of products with actual defects.
